- | | |
|--|-----------------|
| ■ Computer Science
Ualikhanov University | 2017-2021 |
| ■ Natural Language Processing
L.N. Gumilyov Eurasian National University | 2021-incomplete |

Experience

- **TV Program Designer | Channel One Eurasia**
September 2024 - September 2026
 - Developed complete visual identities for television programs, including opening sequences, reusable graphic templates and studio LED graphics.
 - Created full visual packages for documentaries, covering openings, closings, captions and on-screen graphics.
 - Produced visual effects and motion graphics for television content, integrating them into the overall visual language of each program.
- **Motion Designer | TRC of the President of Kazakhstan**
December 2023 - July 2024
 - Managed the complete motion design process for social media content, from planning and shooting (when needed) through animation, compositing and final delivery.
 - Participated in filming and handled editing, animation, compositing and visual finishing.
 - Completed the audio side of projects, including sound effects, mixing and synchronization with the visuals.
- **Complex Graphics Designer | Channel One Eurasia**
September 2022 - December 2023
 - Created VFX for weekly news reports in the channel's main news programs, occasionally supervising the filming process.
 - Designed and animated motion and still graphics for news, special events and major broadcasts
 - Developed reusable graphics templates and visual systems for recurring news content and production workflows.
- **3D Motion Designer | "IoT Pro" LLP**
November 2021 - April 2022
 - Developed teaching concepts, wrote Arduino code, and created scenarios/scripts for educational videos explaining the IoT Board and its components.
 - Created and animated 3D models of the IoT Board, including component wiring and instructional illustrations.
 - Animated electronic circuits, diagrams, schemes and other visual explanations to support the educational content.
 - Created sound design to enhance the videos.
 - Contributed to the brand identity, visual language, and overall aesthetic direction for packaging and social media content.
